

Coloradans for Energy Access

PROVIDING AFFORDABLE ENERGY FOR COLORADO

Natural gas is powering a better tomorrow by providing affordable energy and supporting our economy. Coloradans for Energy Access is committed to ensuring Coloradans can utilize low-cost, clean, and reliable energy sources, including natural gas.

NATURAL GAS IS AFFORDABLE AND RELIABLE.

3.5X NATURAL GAS IS 3.5 TIMES MORE AFFORDABLE THAN ELECTRICITY¹

Natural gas is projected to be 30 to 50% lower than the cost of other fuels through 2050.¹ Other energy sources may be impacted by variable factors, such as weather, but natural gas will remain a reliable option.

NATURAL GAS WORKS AND HELPS TO MAINTAIN LOW MONTHLY UTILITY BILLS.

#1 FOR ALMOST HALF OF COLORADANS, **COST IS THE TOP PRIORITY**

Coloradans want to reduce costs. For 80% of Coloradans, reliability and cost are the most important factors when choosing their energy source.²

20% **INCREASE** **IN JOBS**

NATURAL GAS REMAINS A VITAL ENERGY SOURCE FOR ECONOMIC GROWTH IN COLORADO.

85% of Coloradans agree that having a mix of reliable, affordable energy options that include natural gas and renewables is essential for a strong economy and to create good jobs.² Direct employment at natural gas utilities has grown by over 20% in the last ten years nationally.¹
